DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, drawn to a method of HLA typing.

Group II, claim(s) 10 and 14-15, drawn to a DNA probe.

Group III, claim(s) 11 and 16-17, drawn to a primer.

Group IV, claim(s) 12-13, drawn to a kit or reagent with no recited components.

Group V, claim(s) 18-25, drawn to a method for detecting a specific base sequence.

In addition the claims are directed to multiple patentably distinct DNA sequences. Applicant is required to elect a particular SEQ ID NO. (see groups II and III) or a specific sequence or combination of SEQ ID NOS. (see group I) for examination. Note that this is not a species election. The claims should be amended to reflect the elected sequence. The claims will be examined in accordance with MPEP 803.04 with respect to the art search for an elected combination.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of the first group is the particular method steps recited leading to the stated goal. This special technical feature is not

shared by any of the other groups. The special technical feature of groups II-IV are the particular structures of the products. The special technical feature of Group V is the particular method steps recited leading to the stated goal.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marianne P. Allen whose telephone number is 703-308-0666. The examiner can normally be reached on Monday-Friday, 8:30 am - 2:30 pm.
